

# International Breweries Analysis Project

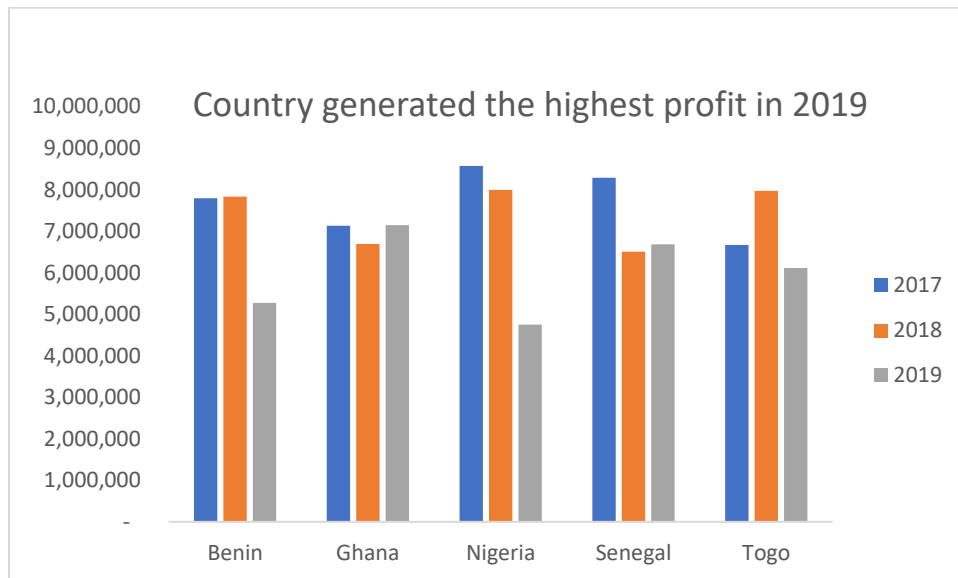

Pabst Brewing Company is an international breweries company.

From the international breweries data recorded for a duration of three years (2017 - 2019).

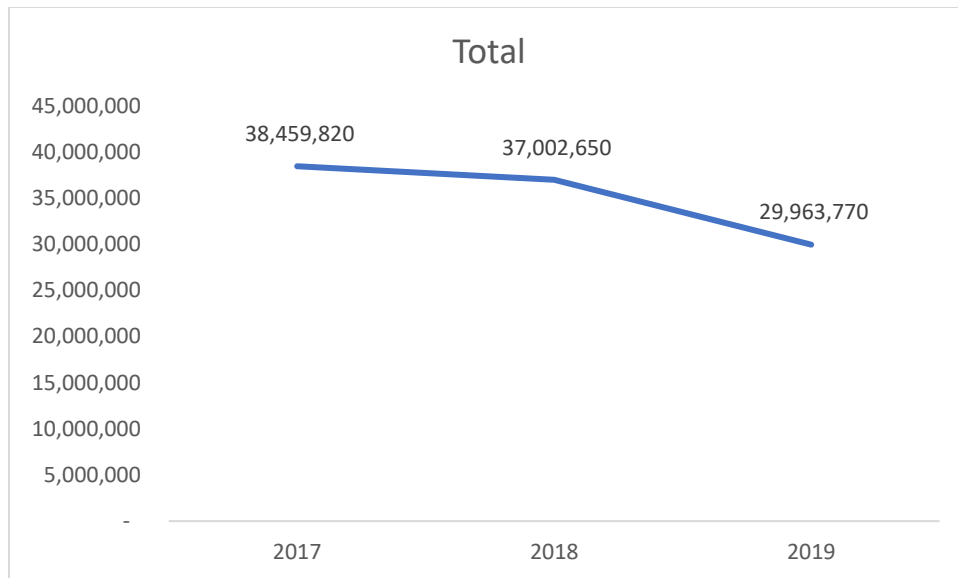

## Analysis and Insights

I created a pivot table to analyze the data, these were the insights the data showed:

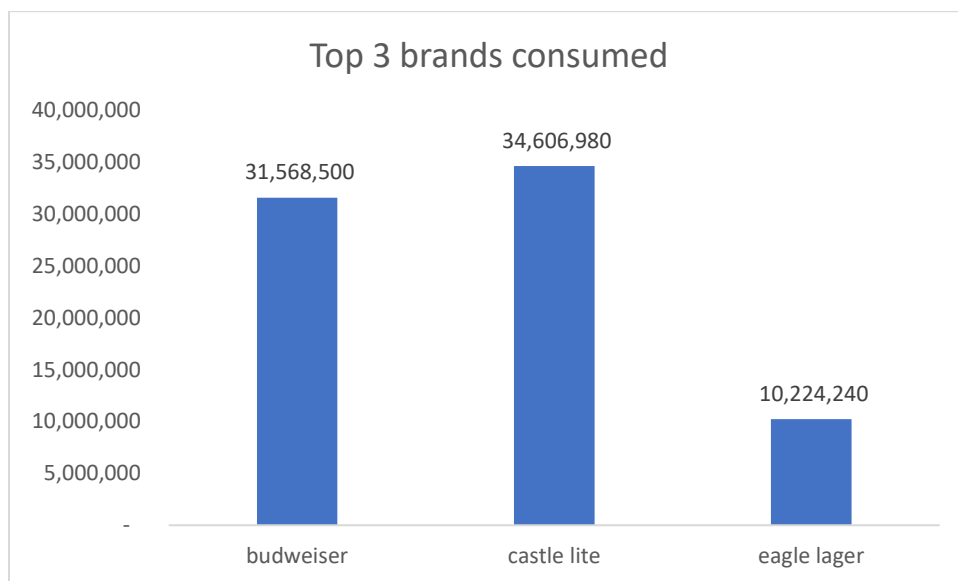

1. The countries where the best cocoa beans are grown include —but are not limited to— Ghana

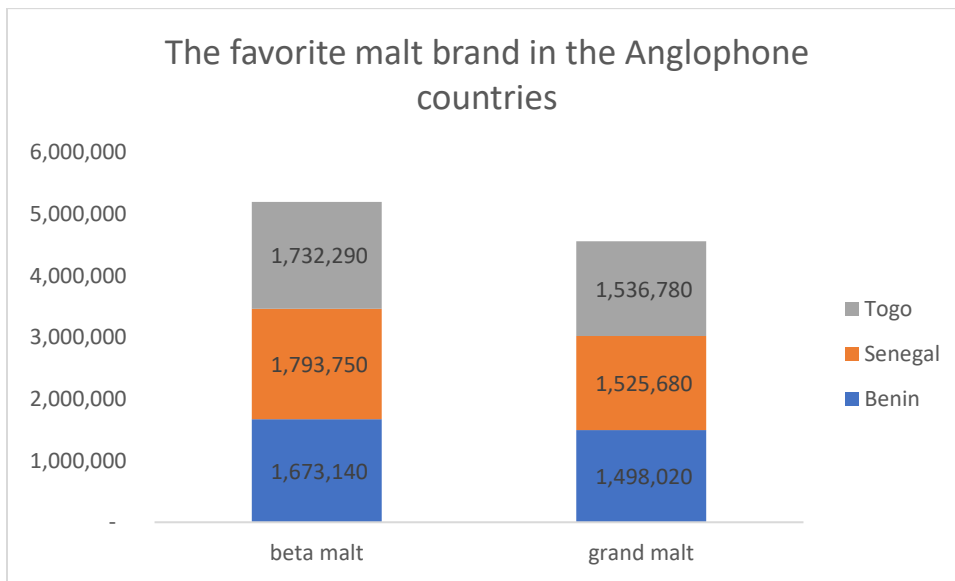

2. 2017 was the leading year of the highest rated profit, far ahead of 2018 and the 2019.

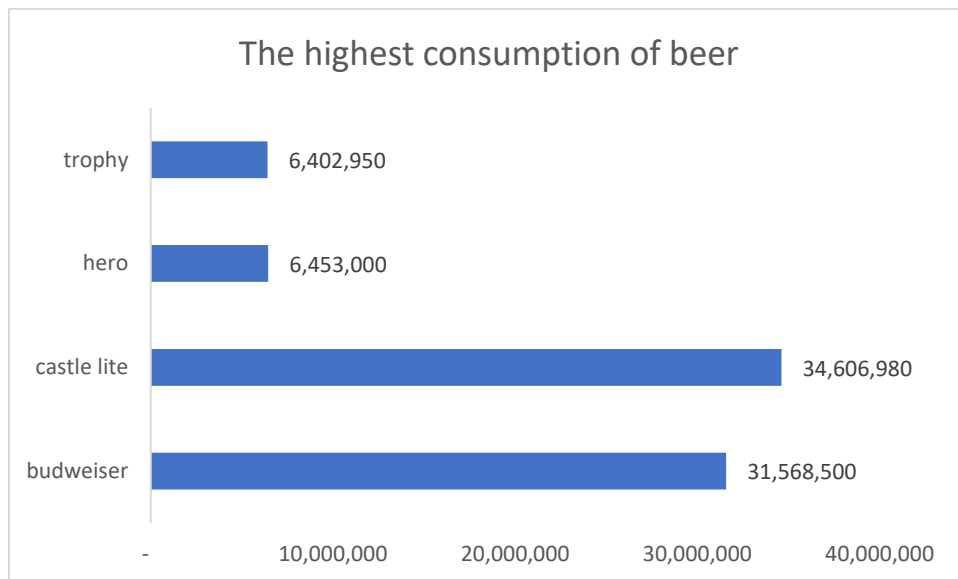

3. The visualization shows the top 3 brands consumed which was caste lite with N34,606,980.

4. The visualization shows that the favorite malt brand in the Anglophone countries was beta malt

5. The visualization shows that highest consumption of beer

6. The visualization shows top 5 Sales Rep
